# I. EXECUTIVE SUMMARY

## Background

BlueCross BlueShield of Tennessee, Inc. (BCBST) is a Federally-facilitated Exchange (FFE) issuer that offered Preferred Provider Organization (PPO) qualified health plans (QHPs) in the individual market in Tennessee during the 2014 benefit year. BCBST submitted their final restated 2014 benefit year data in their November 2015 Enrollment and Payment Data Workbook (EPDW). The issuer received a total of \$239,079,557.40 in advance premium tax credit (APTC) and advance (cost-sharing reductions) CSR payments and paid a total of \$10,837,218.39 in FFE user fees for the 2014 benefit year individual market plans.

This report presents the results of the work performed to assess BCBST's compliance with the APTC, advance CSR, and FFE user fee programs established in sections 1311, 1401 and 1402 of the Patient Protection and Affordable Care Act (Pub. L. 111-148) enacted on March 23, 2010 and further amended and revised by the Health Care and Education Reconciliation Act of 2010 (Pub. L. 111-152) enacted on March 30, 2010 and implementing regulations (collectively referred to throughout as PPACA).

## Audits to Determine Compliance with the Administration of APTC, Advance CSR, and FFE User Fee Programs

Title 45 of the Code of Federal Regulations (CFR), sections 156.480 and 156.705, allow the Department of Health and Human Services (HHS) to conduct audits of issuers that offer a QHP in the individual market through an Exchange to assess compliance with the APTC, advance CSR, and FFE user fee program requirements. The audit supports the Centers for Medicare & Medicaid Services (CMS) objectives to:

- Safeguard Federal funds;
- Instill confidence amongst regulated entities of data quality, soundness, and robustness;
- Evaluate health insurance issuer compliance with program rules and regulations; and
- Develop a successful and coordinated risk-based, multi-year audit program that maximizes resources.

This audit<sup>1</sup> is part of a program established by CMS to validate the enrollment and payment data reported on the final 2014 EPDW and analyze controls and policies of selected issuers pursuant to the authority defined in the regulations.

---

<sup>1</sup> Audits are not performed in accordance with Generally Accepted Government Auditing Standards (GAGAS); however the procedures were defined and executed consistent with the competence, integrity, objectivity, and independence required for performance audits as defined by GAGAS. The reporting approach was designed to provide the flexibility needed in determining the audit objectives, criteria, and processes when standing up a new oversight program.

**Results of Review**

CMS's procedures identified one finding for BCBST. The finding involves the inclusion of enrollment and full month payment data for subscribers who were reported more than once in the same month.

## II. BACKGROUND, OBJECTIVES, SCOPE, AND METHODOLOGY

---

---

### A. Background

Sections 1401 and 1402 of the PPACA established the APTC and advance CSR programs to support the provision of affordable health care coverage to individuals. Additionally, section 1311 of the PPACA allowed the FFE to charge participating issuers user fees to support FFE operations.

CMS has the responsibility to confirm successful implementation of, and adherence to, the PPACA provisions and implementing regulations governing the APTC, advance CSR, and FFE user fee programs. As such, CMS established this audit program.

### Interim Payment Process

For the 2014 benefit year, CMS implemented a temporary process (“interim payment process”) to calculate and make monthly payments of APTC and advance CSR amounts and to calculate and collect monthly FFE user fee amounts based on data submitted by issuers at the QHP level. On a monthly basis, CMS required submitters to use a standard template, *i.e.* the EPDW that CMS staff created and maintained, to submit payment data. The EPDW was preprogrammed with individual submitter data that allowed the submitter to self-validate data prior to submission to CMS. The EPDW included the option to restate prior months’ data or indicate no change in data since the last submission. CMS required submitters to send the following information at the QHP plan variant level via the password-protected template:

1. State
2. Tax Identification Number (TIN)
3. Health Insurance Oversight System (HIOS) ID
4. QHP ID
5. Total premium amount for all enrollments
6. Total APTC amount
7. Total advance CSR amount
8. Total FFE User Fee amount
9. Total effectuated enrollment groups
10. Total effectuated enrollment groups with APTC
11. Total effectuated enrollment groups with CSR
12. Total effectuated members
13. Total effectuated members with APTC
14. Total effectuated members with CSR

Issuers and State-based Exchanges (SBEs) on behalf of issuers were required to calculate the QHP level enrollment and payment amounts submitted on the EPDW using their internal source data.

## **B. Audits to Determine Compliance with the Administration of APTC, Advance CSR, and FFE User Fee Programs**

CMS established an audit protocol that is organized around the following regulations governing APTC, advance CSR, and FFE user fee programs, and the procedures required to assess compliance with these applicable regulations:

- 45 CFR 156.50: Financial Support;
- 45 CFR 156.460: Reduction of enrollee's share of premium to account for advance payments of the premium tax credit;
- 45 CFR 156.480: Oversight of the administration of the cost-sharing reductions and advance payments of the premium tax credit programs;
- 45 CFR 156.705: Maintenance of records for Federally-facilitated Exchanges.

Refer to Appendix 1 for the specific requirements established under the authorities listed above.

## **C. Objectives**

The objectives of these audits are to:

- (1) Evaluate the accuracy and integrity of issuer-generated EPDW data reported for the APTC, advance CSR, and FFE user fee programs;
- (2) Identify potential CMS payment errors resulting from issuer data reporting errors; and
- (3) Test accuracy and integrity of processes for reducing an enrollee's share of premium to account for APTCs (45 CFR 156.460).

## **D. Scope and Methodology**

CMS selected BCBST for an audit under the above-mentioned regulation(s). As established by CMS, the audit centered on evaluating activity at BCBST related to the 2014 benefit year (January 1, 2014, through December 31, 2014), individual market data reported on the final EPDW(s) submitted by the issuer to support APTC and advance CSR payments, and FFE user fee collections.

CMS informed BCBST via electronic letter on November 16, 2016, that it would be audited. BCBST then received a letter on November 18, 2016 from CMS's audit contractor identifying data requirements required to conduct the audit. CMS's audit contractor reviewed BCBST's information provided and performed the procedures to assess compliance with APTC, advance CSR and FFE user fee program rules and regulations as defined in the CMS protocols.

CMS's audit contractor applied audit protocol procedures to obtain sufficient and appropriate evidence to establish reasonable bases for the findings related to the audit objectives identified in section II.C of this report. CMS's audit contractor performed the following procedures:

- Validations of the APTC/CSR Desk Audit File<sup>2</sup> data submitted to CMS:
  - EPDW Validations: Comparison of the final 2014 EPDW submitted to CMS to the APTC/CSR Desk Audit File from BCBST's systems.
  - Duplicate Check: Review of the APTC/CSR Desk Audit File containing subscriber level data from BCBST's systems to verify duplicate Exchange-assigned subscriber IDs (i.e. Exchange-assigned subscriber IDs that were reported on the file twice in the same month) were not reported on the file.
  - Unreconciled Subscribers Review: Review and comparison of the subscribers reported on the APTC/CSR Desk Audit File to the subscribers included in CMS's systems to determine if the subscribers existed and were effectuated (i.e. the amount the subscriber is responsible to pay toward the first month's total premium amount has been paid in full by the subscriber) in CMS's systems.
- Validations on samples of issuer system data:
  - 45 Subscriber Review: Review and comparison of the data from the issuer's systems to the corresponding data included in CMS's systems for a selected sample of 45 subscribers.
  - 15 Subscriber Review: Analysis and review of data and documentation from the issuer's systems to verify effectuation and the appropriate application of premium and APTC amounts to policies for a selected sample of 15 subscribers.
- Policy and Procedure Review: Review of issuer APTC policies and procedures for completeness and clarity.

---

<sup>2</sup> The APTC/CSR Desk Audit File is CMS's standard document for issuers to provide information in support of this audit.

There was one finding in the review of BCBST's APTC/CSR Desk Audit File to verify duplicate Exchange-assigned subscriber IDs were not reported on the file. Refer to Finding No. 1 included in section IV for details on the finding.

#### **Unreconciled Subscribers Review**

There were no findings noted in the review of BCBST's APTC/CSR Desk Audit File to determine if the subscribers reported on the file existed and were effectuated in CMS's systems.

#### **45 Subscriber Review**

There were no findings noted in the review and comparison of the data from BCBST's systems to the corresponding data included in CMS's systems for a selected sample of 45 subscribers.

#### **15 Subscriber Review**

There were no findings noted in the analysis and review of the data and documentation from BCBST's systems to verify effectuation and the appropriate application of premium and APTC amounts to policies for a selected sample of 15 subscribers.

#### **Policy and Procedure Review**

There were no findings noted in the review of BCBST's APTC policies and procedures.

## IV. FINDINGS

A finding is an identification of an instance of issuer non-compliance with CMS requirements that requires a corrective action. CMS's audit procedures identified one finding. The one finding resulted in a change to BCBST's reported EPDW for individual market plans for the 2014 benefit year. In light of this finding, the adjusted 2014 benefit year EPDW APTC and advance CSR payments and FFE user fee amounts for individual market plans are shown in the following table.

### Recalculated EPDW for Benefit Year 2014

	FFE User Fees	APTC	Advance CSR Payments*
EPDW As Filed in November 2015	\$(10,837,218.39)	\$186,397,284.17	\$52,682,273.23
Duplicate Check Adjustment	\$105.06	\$(1,443.00)	\$(234.68)*
EPDW As Recalculated	\$(10,837,113.33)	\$186,395,841.17	\$52,682,038.55*
<b>(Refund) from CMS / Payment to CMS</b>	\$(105.06)	\$1,443.00	

\* Note: The advance CSR financial impact is for informational purposes only.

The net financial impact of the one audit finding is a payment due to CMS of \$1,337.94 consisting of \$(105.06) in FFE user fees and \$1,443.00 in APTC. The one audit finding along with the criteria, cause, effect, corrective action, and BCBST's response is as follows:

<b>Finding No. 1 - Duplicate Check</b>	<b>Condition:</b>	BCBST overstated benefit year 2014 premiums by reporting enrollment and full month payment data for two duplicate subscribers, i.e. subscribers who were reported more than once in the same month. Additionally, BCBST overstated benefit year 2014 premiums, APTC and CSR (as applicable) by reporting enrollment and full month payment data for four duplicate subscribers.
	<b>Criteria:</b>	Issuers cannot request payment from CMS for the same subscriber twice within a month.

	<p><b>Cause:</b></p>	<p>The issuer indicated the following explanations for the six subscribers:</p> <ul style="list-style-type: none"> <li>• “Initial policy effectuated, but then terminated for non-payment of premiums effective 2/28/2014. New policy keyed from a different transaction with an original effective date of 5/1/2014.”</li> <li>• “OVERALL ISSUE: Facets auto-termination with incorrect termination date created the overlap for the 7/2014 payment month. We have not seen any other incorrect termination date issues of this nature.”</li> <li>• “OVERALL ISSUE: Policy effective date changed per HICS case and overlapped mid-month requested termination date received from CMS.”</li> <li>• “OVERALL ISSUE: New policy issued as received from CMS without research into other overlapping policy.”</li> <li>• “OVERALL ISSUE: CMS enrollment transaction’s policy effective date overlapped CMS’ mid-month requested termination date.”</li> <li>• “OVERALL ISSUE: Reinstatement resulting from a HICS case did not take into account that a new enrollment might have been generated by a CMS transaction.”</li> </ul>
	<p><b>Effect:</b></p>	<p>The inclusion of enrollment and payment data for the six duplicate subscribers resulted in a change to BCBST’s final, restated benefit year 2014 EPDW data.</p>
	<p><b>Corrective Action Required:</b></p>	<p>The net financial impact for this finding is a payment due to CMS of \$1,337.94 consisting of \$(105.06) in FFE user fees and \$1,443.00 in APTC. BCBST should confirm this financial impact and coordinate with CMS on resolution.</p> <p>The advance CSR payment impact for this finding is an overstatement of \$234.68; however, this is for informational purposes only.</p>
