## **Fiscal Year 2022 Hospice Wage Index and Payment Rate Update, Hospice Conditions of Participation Updates, Requirements, and Home Health Quality Reporting Program Final Rule CMS-1754-F**

On July 29, 2021, the Centers for Medicare & Medicaid Services (CMS) issued a final rule (CMS-1754-F) that provided updates to and finalized proposals for fiscal year (FY) 2022 Hospice Quality Reporting Program (HQRP). This rule includes finalizations for changes to the Home Health Quality Reporting Program beginning with January 2022 to address exceptions related to the COVID-19 public health emergency. We included Home Health in this rule because we will resume public reporting for the HH QRP with the January 2022 refresh of Care Compare. In order to accommodate the exception of 2020 Q1 and Q2 data, we finalized the resumption of public reporting using 3 out of 4 quarters of data for the January 2022 refresh. In order to complete this proposal in time to release the required preview report related to the refresh, which we release 3 months prior to any given refresh (Oct. 2021), we needed the rule containing this proposal to finalize by October 2021.

The final rule went on display at the Federal Register's Public Inspection Desk and will be available under "Special Filings," at <https://www.federalregister.gov/public-inspection>.

### **Hospice Quality Reporting Program: Non-Compliance Notifications**

CMS is providing notifications to hospices that were determined to be out of compliance with Hospice Quality Reporting Program (HQRP) requirements for calendar year (CY) 2020, which will affect their fiscal year (FY) 2022 Annual Payment Update (APU). Non-compliance notifications will be distributed by the Medicare Administrative Contractors (MACs) and will be placed into hospices' CASPER folders in QIES on **July 14, 2021**. Hospices that receive a letter of non-compliance may submit a request for reconsideration to CMS **via email no later than 11:59 pm, August 13, 2021**. If you receive a notice of non-compliance and would like to request a reconsideration, see the instructions in your notification and on the [Reconsideration Requests](#) webpage.

***Please note:** Any reconsideration containing protected health information (PHI) will not be processed. All PHI must be removed in order for a reconsideration to be reviewed.*

### **May 2021 Hospice Quality Reporting Program (HQRP) Update Now Available**

The May 2021 update is now available on [Care Compare](#), the streamlined redesign of eight former CMS healthcare compare tools on [Medicare.gov](#), including Hospice Compare. We made several changes. First, data derived from the Post-Acute Care and Hospice Provider Utilization and Payment Public Use File (PUF) have been updated to include calendar year 2018 data. Furthermore, additional data elements from the PUF file have been added to inform users whether a hospice provided service to any Medicare Advantage patients, or patients with both Medicaid and Medicare coverage. Please visit the [Public Reporting: Background and Announcements](#) webpage to view a newly issued Fact Sheet and Question and Answer document. These resources provide an overview of the PUF information on hospices publicly reported by the HQRP.

In addition, Care Compare visitors can now use a new link to the FY 2021 Annual Payment Update Compliance File to identify hospices which have been compliant with HQRP requirements in their area. This file is already publicly available on the [HQRP Requirements](#) webpage. As an integral part of Care Compare, it will now be more accessible to consumers and thus help inform their decisions.

Finally, as of May 2021, we also updated the claims-based zip codes using CY 2019 Medicare claims data. This routine annual update ensures that the Care Compare search engine continues to provide accurate and up-to-date hospice information to consumers. Hospice Item Set zip code data continue to come from January-December 2019 Hospice Item Set records.

Please note that all Hospice Item Set and CAHPS measures remain frozen due to the temporary exemption to the HQRP data submission requirements in responding to the COVID-19 Public Health Emergency (PHE). For additional information on COVID-19 PHE data exemption, please see the [Hospice COVID-19 Public Reporting Tip Sheet \(PDF\)](#) in the **Downloads** section of the [HQRP Requirements and Best Practices](#) webpage. For more information about public reporting, please see the [Public Reporting: Key Dates for Providers](#) webpage.

##### **Update Regarding Hospice Visits in Last Days of Life (HVLDL) Measure**

As of January 1, 2021, the Hospice Visits in the Last Days of Life (HVLDL) claims based measure replaces the information previously collected in Section O of the HIS-Discharge. This is a re-specified, claims-based version of the Hospice Visits when Death is Imminent (HVWDII) measure pair. Per the measure specifications, HVLDL indicates the hospice provider's proportion of patients who have received visits from a registered nurse or medical social worker (non-telephonically) on at least two out of the final three days of the patient's life.

The calculation of the last three days remains unchanged from the last three days documented in Section O. Information defining the last three days can be found on page 2O-3 in [HIS Manual V2.01 \(PDF\)](#). Specifically these three days as “indicated by the day of death, the day prior to death, and two days prior to death.”

- The day of death is the same as the date provided in A0270, Discharge Date. (or the day of death)
  - One day prior to death is calculated as A0270 minus 1.
  - Two days prior to death is calculated as A0270 minus 2.
- This new measure is expected to be publicly reported in spring 2022. This date will be finalized once the draft HIS Manual V3.00 receives final OMB approval.
