

ESRD QIP Summary: Payment Years 2012 – 2016

The Centers for Medicare & Medicaid Services (CMS) administers the End-Stage Renal Disease (ESRD) Quality Incentive Program (QIP) to promote high-quality care by outpatient dialysis facilities treating patients with ESRD. The first of its kind in Medicare, this program changes the way CMS pays for the treatment of ESRD patients by linking a portion of payment directly to facilities' performance on quality care measures. The ESRD QIP will reduce payments to ESRD facilities that do not meet or exceed certain performance standards.

For more information about the program, see <http://www.cms.gov/Medicare/Quality-Initiatives-Patient-Assessment-Instruments/ESRDQIP/index.html>. For more information about specifications on each measure (including exclusions), see <http://www.dialysisreports.org/ESRDMeasures.aspx>. If you have questions about the program after reviewing this content, you may reach the CMS ESRD QIP staff by emailing ESRDQIP@cms.hhs.gov.

The following chart summarizes selected details of ESRD QIP payment years (PY) over the first five years of the program's implementation.
