

DATE: June 17, 2024

SUBJECT: Notice of Performance Year 2024 Participants for the Kidney Care Choices (KCC) Model following the April 30, 2024, termination without liability date.

The Center for Medicare and Medicaid Innovation is announcing that 103 participants¹ are participating in performance year 2024 (PY 2024) for the Kidney Care Choices (KCC) Model. Of these, 80 participants are in the Comprehensive Kidney Care Contracting (CKCC) options, which are accountable care organization (ACO)-style with different levels of financial risk and 23 participants² are part of the Kidney Care First (KCF) option, which is a medical home-style option for nephrology practices.

The KCC Model is a voluntary payment model aimed to reduce the cost of care and improve both quality and care coordination for Medicare beneficiaries with late-stage chronic kidney disease (CKD) and End-Stage Renal Disease (ESRD). The goals of the model include slowing the progression of CKD, better dialysis starts, incentivizing home dialysis and promoting greater utilization of kidney transplants.

The KCC Model performance period started on January 1st, 2022, with 50 Kidney Care Entities (KCEs) in the CKCC options and 30 KCF Practices in the KCF option. A second cohort was added in the subsequent PY that started on January 1st, 2023. The second cohort doubled the number of participants in the model to 100 KCEs participating in the CKCC options and 30 KCF Practices in the KCF option. This vastly increased the number of aligning providers and beneficiaries that are part of the model.

¹ This number excludes the KCEs who terminated from the model effective May 31, 2024, after providing notice of termination prior to the termination of liability date of April 30, 2024.

² Four of the 23 KCF Practices have a June 30, 2024, effective termination date.

Table 1: Participation Overview

Performance Year	Number of Participants	Number of Aligned Beneficiaries	Number of Participating Providers*	Total Net Shared Savings Generated
2022	85	128,141	6,260	Not yet available
2023	130	249,662	8,382	Not yet available
2024	123	282,335	9,227	Not yet available
2024 [^]	103	186,948 [†]	8,175 [†]	Not yet available

* Includes both aligning and preferred providers.

[^] Excludes figures from the KCEs that terminated effective May 31, 2024.

[†] Includes figures from the four KCF Practices with a June 30, 2024, effective termination date.

Table 2: Participation by Model Option

Model Option	PY 2022	PY 2023	PY 2024	PY 2024 [^]
Kidney Care First (KCF Practices)	30	30	23	23 [†]
Comprehensive Kidney Care Contracting (KCEs)	55	100	100	80

[^] Excludes figures from the KCEs that terminated effective May 31, 2024.

[†] Includes figures from the four KCF Practices with a June 30, 2024, effective termination date.

Table 3: Participation by Risk Option in CKCC

CKCC Risk Option	PY 2022	PY 2023	PY 2024	PY 2024 [^]
Graduated Level 1	4	0	0	0
Graduated Level 2	7	13	4	0
Professional	37	56	65	64
Global	7	31	31	16

[^] Excludes figures from the KCEs that terminated effective May 31, 2024.

Table 4: PY 2024 KCC Provider List Composition

Provider Type	Count*
Aligning Provider (Nephrologist, NP, PA)	4,590
Nephrology Practice	444
Dialysis Facility	2,091
Transplant Provider - Individual Provider	183
Transplant Provider - Facility	19
Transplant Provider - Organization	40
Other Practice	144
Other Individual Provider	610
Other Facility	54
Total	8,175[†]

* Includes both aligning and preferred providers.

† Includes figures from the four KCF Practices with a June 30, 2024, effective termination date.
