| Determination Status Definitions | | | | | | | |
| <p>Partial Approval: Application did not meet the criteria for assignment to a new technology APC. CMS will create a new C-code to describe the procedure and assign the code to an existing clinical APC that is appropriate in terms of clinical and resource costs. <i>Note: C-codes are independent from Level I and Level II HCPCS codes and are intended solely for hospitals to use when billing under the Medicare OPSS.</i></p> | | | | <p>Approval: Application met the criteria for assignment to a new technology APC. CMS will create a new C-code to describe the new service and assign it to a new technology APC group based on the resource costs associated with the service. Services that have existing CPT codes assigned to new technology APCs will also be considered approvals. <i>Note: C-codes are independent from Level I and Level II HCPCS codes and are intended solely for hospitals to use when billing under the Medicare OPSS.</i></p> | | | |
| <p>Effective Date: The date that our decision is effective. The C-code and APC assignment will be effective for claims billed beginning on this date.</p> | | | | <p>Implementation Date: The date that our payment files and systems will reflect our decision (i.e. the date that the CR and IOCE will reflect the new C-code and APC assignment).</p> | | | |
| The payment rates for APCs can be found in OPSS Addendum A on the CMS website. | | | | | | | |
