

## HPMS E-Mail

**Date:** March 3, 2025

**Subject:** Contract Year 2025 PBP data posted on cms.gov in JSON

CMS is pleased to announce that the Contract Year (CY) 2025 approved plan benefit data is posted in an additional format on the CMS public website. In addition to the tab delimited text format, the PBP benefits data is now available in a JSON format. The JSON format mirrors the submission format in the plan benefit package (PBP) module and does not map back to historical data fields. On an annual basis, CMS will publish the Plan Benefit Package data in both formats (i.e., the historical tab delimited text files and the JSON files).

The new plan benefit data JSON file is available at the following URL:

<https://www.cms.gov/data-research/statistics-trends-and-reports/medicare-advantagepart-d-contract-and-enrollment-data/benefits-data/pbp-benefits-2025-json>

As a reminder, the approved plan benefit file does **not** include PBP note fields or Bid Pricing Tool (BPT) data.
