02 – Substantial/maximal assistance

01 – Dependent

Each series of arrows below describes a footwear scenario. The green arrows in the second and fourth columns identify key elements of each scenario that inform the coding of **GG0130H. Putting on/taking off footwear**.

Additional Clinical Considerations

- **GG0130H. Putting on/taking off footwear** may be coded using an activity performance code if the patient wears shoes that are safe for mobility but does not wear socks.
- If the patient's socks are not considered safe for mobility and the patient does not have shoes available, determine the performance code based on patient/caregiver report, collaboration with other facility staff, or assessment of similar activities.
- An item that covers all or part of the foot is considered footwear, even if it extends up the leg, and should not be considered as a lower body dressing item.
