Date: January 26, 2024

Subject: Contract Year (CY) 2024 Plan Benefit Package (PBP) Data Refresh in the PBP Sandbox

As outlined in the January 5, 2024 HPMS communication entitled “Contract Year (CY) 2025 Plan Benefit Package (PBP) Industry Testing,” plan and consultant users began previewing the CY 2025 PBP

in the PBP Sandbox module on HPMS production on January 8, 2024. This functionality will be temporarily disabled starting at 5:00 p.m. ET on Friday, February 2, 2024 to prepare the module for the formal test period. Beginning on February 5, 2024, plan and consultant users may begin CY 2025 testing in the PBP Sandbox on HPMS production.

During the weekend of February 3-4, 2024, CMS will refresh the PBP sandbox with a copy of your organization’s approved CY 2024 data. CMS will **NOT** modify any CY 2025 test data that your organization has built during the preview period.

Comments on the PBP module must be submitted via the following website:
