

## Extended Survey

**Extended Survey:** The purpose of the extended survey is to explore the extent to which structure and process factors may have contributed to systemic problems causing SQC. An extended survey includes all of the following:

- Review of a larger sample of resident assessments than the samples used in a standard survey;
- Review of the staffing and in-service training;
- If appropriate, examination of the contracts with consultants;
- A review of the policies and procedures related to the requirements for which deficiencies exist; and
- Investigation of any Requirement for Participation (RfP) at the discretion of the Survey Agency.

An extended survey is conducted when Substandard Quality of Care (SQC) has been verified.

***Substandard Quality of Care** is defined as one or more deficiencies with scope/severity levels of F, H, I, J, K, or L in any of the following F tags:*
