Slide 3 of 17 -Course Overview

Course Overview

By the end of this course, you will be able to:

- Explain the Benefits of using the Web Portal
- Discuss the basic requirements needed to use the Web Portal

Slide notes

This course explains the benefits of using the WCMSA Web Portal and provides the basic system requirements.

Slide 4 of 17 - Benefits of the Web Portal Overview

Overview

Workers' Compensation Set-Aside Web Portal

Welcome to the WCMSAP

This site provides an interface for entry of Workers' Compensation Medicare Set-Aside Arrangements (WCMSA) proposals. Attorneys, beneficiaries, claimants, insurance carriers and WCMSA vendors may use this site to enter the case information directly. The site also provides attorneys, Medicare beneficiaries, claimants, insurance carriers, and WCMSA vendors with the ability to track their submitted cases and the statuses will call inquiry to the Benefits Coordination & Recovery Center (BCRC) or the Centers for Medicare & Medicaid Services (CMS).

For information about the availability of auxiliary aids and services, please visit: [http://www.medicare.gov/about-us/trend/ondemand/ondemand/ondemand/ondemand/](http://www.medicare.gov/about-us/trend/ondemand/ondemand/ondemand/ondemand/ondemand/)

WCMSAP Message

Attention Medicare Beneficiaries: If you are looking to submit an annual attestation electronically for your self-administered Medicare Set-Aside (MSA), please be aware that you may also be requesting to be logged in to your Medicare.gov account. Using your Medicare.gov account to access your MSAs in the WCMSAP making registration for a WCMSAP account unnecessary. Additional information on submitting attestations can be found in the Self-Administration Toolkit for WCMSAs.

GETTING STARTED

For more information, refer to How To Get Started under the How To menu option.

STEP 1
New Registration →

STEP 2
Account Setup →
(Account ID and PIN required)

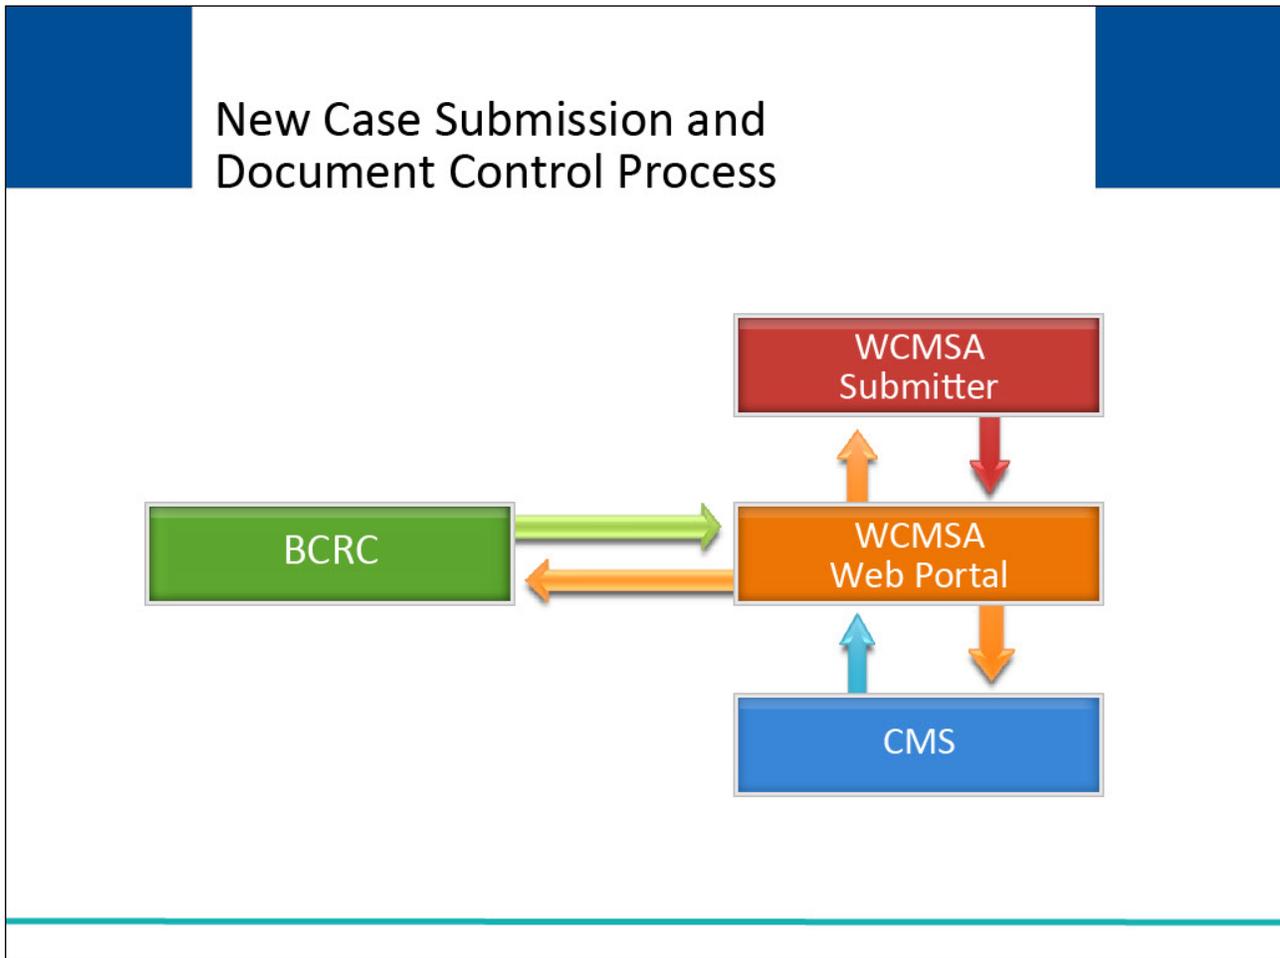

Slide notes

CMS requires a mechanism to receive and evaluate future medical and future prescription drug costs for inclusion in WCMSAs.

The WCMSAP is a web-based application that allows attorneys, beneficiaries, claimants, insurance carriers, representative payees,

and WCMSA vendors to create a work-in-progress case, submit WCMSA cases, perform case lookups, append documentation to a case, receive alerts relating to case activity, and submit a re-review request.

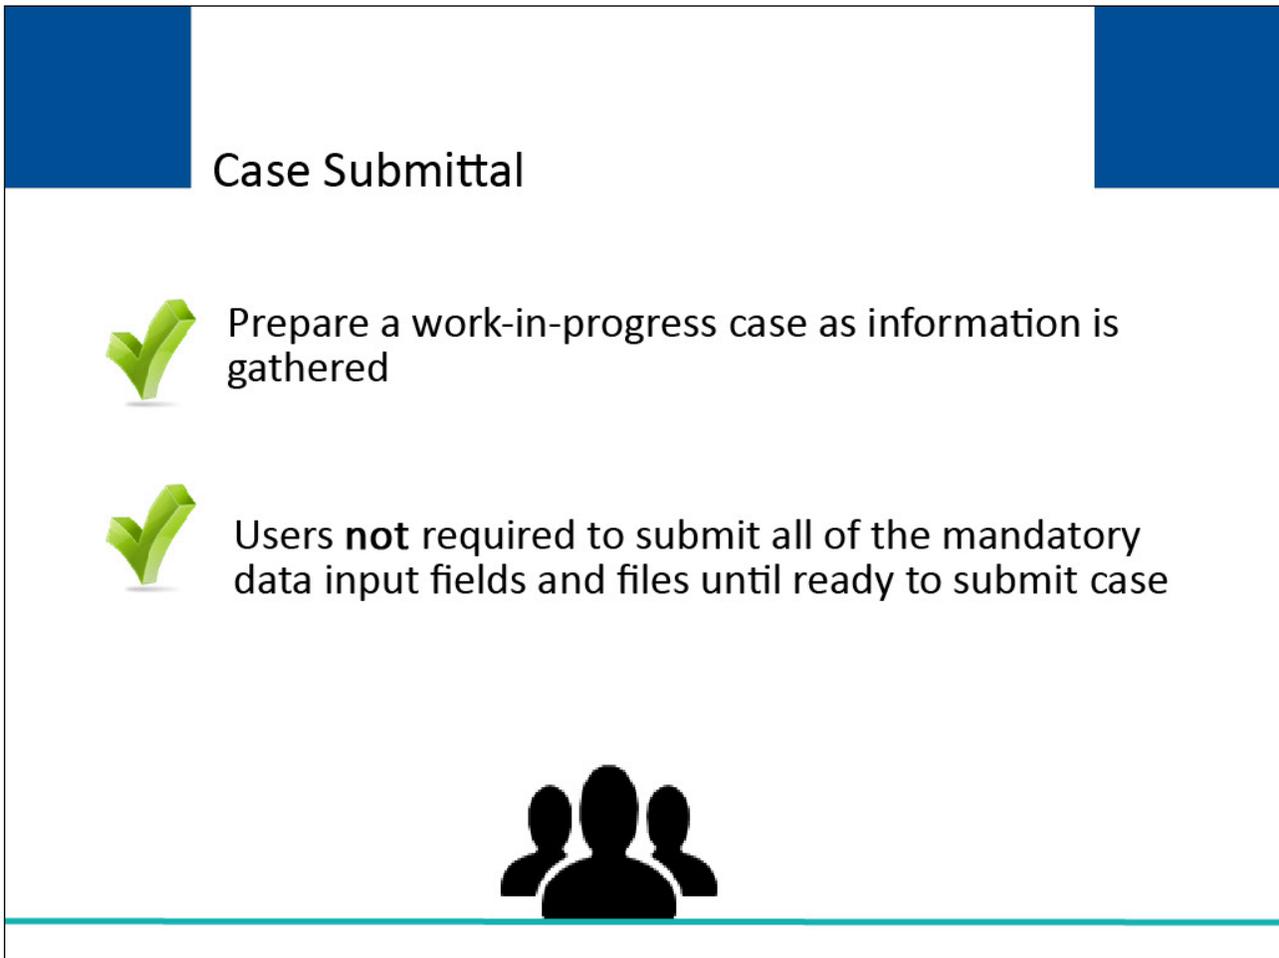

Slide 5 of 17 - New Case Submission and Document Control Process

Slide notes

This diagram shows all entities that will have knowledge of the WCMSAP and that will interact with it: the WCMsa Submitter, the Benefits Coordination & Recovery Center (BCRC) and CMS.

Slide 6 of 17 - Case Submittal

Case Submittal

-  Prepare a work-in-progress case as information is gathered
-  Users **not** required to submit all of the mandatory data input fields and files until ready to submit case

Slide notes

WCMSAP users have the ability to create and store a work-in-progress case which gives the user the opportunity to gather necessary case information (prior to submitting a case to CMS for review).

Users will not be required to submit all of the mandatory data input fields and files until they are ready to submit the case.

Slide 7 of 17 - Real-Time Case Tracking

Real-Time Case Tracking

-  Track submitted cases without phone inquiry
-  Fast case feedback
-  Use Case Lookup and View Alert Functions

Slide notes

The WCMSAP provides the ability to track submitted cases without inquiry to the BCRC or CMS.

Phone calls to obtain case status information will no longer be necessary; status on a given case can be viewed on a real-time basis, via the Web Portal.

With the introduction of the WCMSAP, WCMSA submitters receive almost instantaneous feedback regarding a case.

If you are missing case documentation or have incorrect data input, you are notified (via email). Case Lookup and View Alert functions are also available.

Slide 8 of 17 - Case Updates

Case Updates

-  Append new files to replace missing documentation
-  Replace incorrect documentation

Slide notes

If case documentation is missing or has incorrect data input, the submitter may append new files or replace case documentation.

Slide 9 of 17 - Expedited Case Receipt and Processing

Expedited Case Receipt and Processing

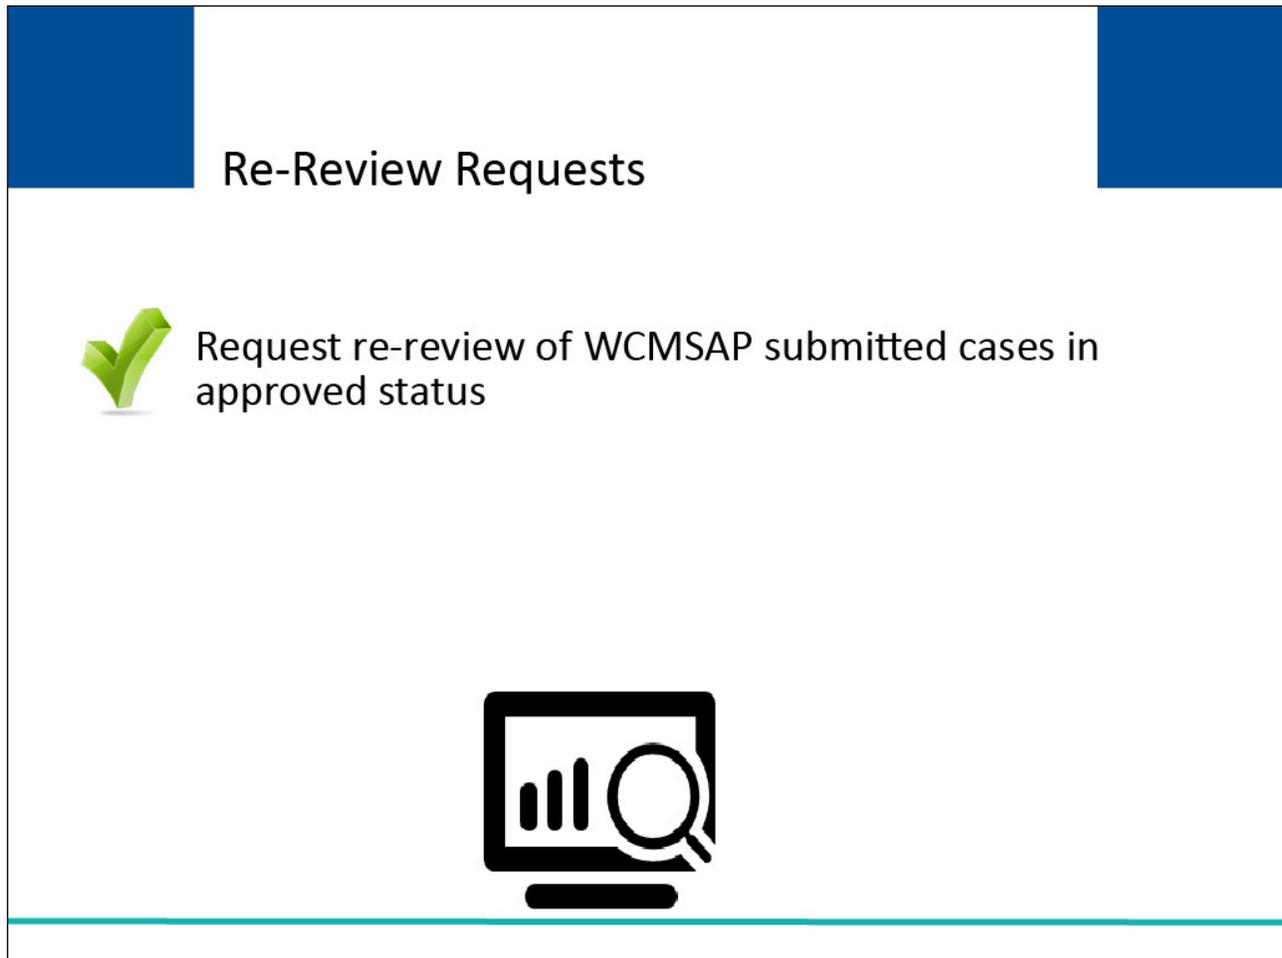

Receipt and review of proposals on a more expedited basis

Slide notes

The WCMSAP allows for the electronic receipt, review and/or processing of WCMSA proposals for future medical and prescription drug costs on a more expedited basis.

Slide 10 of 17 - Re-Review Requests

Re-Review Requests

 Request re-review of WCMSAP submitted cases in approved status

Slide notes

You can use the WCMSAP to submit a request to CMS to re-review a case if you disagree with the Regional Office’s decision.

A WCMSAP case is eligible for re-review when it is in approved status and a re-review has not already been requested.

Slide 11 of 17 - Basic Requirements

Basic Requirements

- For more information regarding WCMSA visit:

<https://www.cms.gov/medicare/coordination-benefits-recovery/workers-comp-set-aside-arrangements/portal>

Slide notes

In order to be able to use the WCMSA Web Portal, you will need a basic knowledge of WCMSAs.

For information regarding WCMSAs, please refer to the CMS Workers' Compensation Medicare Set Aside Arrangements site at the following link: <https://www.cms.gov/medicare/coordination-benefits-recovery/workers-comp-set-aside-arrangements/portal>

Slide 12 of 17 - Basic Requirements

Basic Requirements

- Internet Access
- Computer Requirements:
 - Internet Explorer v7+
 - Firefox v3.5+

<https://www.cob.cms.hhs.gov/WCSMA/>

Slide notes

Since the WCMSA Web Portal is a Web-based application, you must have Internet access to log into the system.

Users with either Internet Explorer v7 or higher or Firefox v3.5 or higher, will be able to type the URL (<https://www.cob.cms.hhs.gov/WCMSA/>) directly into the Web address line to access the system login page.

Slide 13 of 17 - Basic Requirements

Basic Requirements

- Scanner
- PDF Software

Slide notes

To upload case documentation, users must have a document scanner.

Users must also have a Portable Document Format (PDF) software, such as Adobe Acrobat, but any PDF software will work.

Slide 14 of 17 - Basic Requirements

Basic Requirements

- Complete initial registration
- For information on how to register, see the Registration CBTs

Slide notes

If you are interested in obtaining access to the WCMSAP, you must register.

To learn more about the registration process, view the Registration CBTs.

Slide 15 of 17 - Course Summary

Course Summary

You are now able to:

- Explain the Benefits of using the Web Portal
- Discuss the basic requirements needed to use the Web Portal

Slide notes

This course explained the benefits of using the WCMSA Web Portal and provided the basic system requirements.

Slide 16 of 17 - Conclusion

You have completed the Benefits of Using the WCMSAP course. The information in this course can be referenced by using the document at the link below.
