3	E0100	E-3	Rationale: The resident reports an auditory and visual sensations that occurs in the absence of any external stimulus. Therefore, this is a hallucination.
3	E1100	E-22	1. On the prior assessment, the resident was reported to wander on 4 out of 7 days. Because of elopement, the behavior placed the resident at significant risk of getting to a dangerous place. On the current assessment, the resident was found to wander on the unit 2 of the last 7 days but has not attempted to exit the unit. Because a door alarm system is now in use, the resident was not at risk for elopement and getting to a dangerous place. the resident is no longer attempting to exit the unit, she is at decreased risk for elopement and getting to a dangerous place. However, the resident is now wandering into the rooms of other residents, intruding on their privacy. This requires occasional redirection by staff.
