PROVIDER TYPE AFFECTED

This MLN Matters® Article is for physicians, other providers, and suppliers submitting clinical laboratory claims to Medicare Administrative Contractors (MACs) for services to Medicare beneficiaries.

PROVIDER ACTION NEEDED

CR 11280 informs MACS about the changes in the July 2019 quarterly update to the Clinical Laboratory Fee Schedule (CLFS). Make sure that your billing staffs are aware of these changes.

BACKGROUND

Effective January 1, 2018, Medicare bases CLFS rates on weighted median private payor rates as the Protecting Access to Medicare Act (PAMA) of 2014 requires. For more details, visit PAMA Regulations at <https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/ClinicalLabFeeSched/PAMA-Regulations.html>.

Note: Part B deductible and coinsurance do not apply for services paid under the CLFS.

Access to Data File

The quarterly CLFS data file will be available at <https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/ClinicalLabFeeSched/index.html>. Other interested parties, such as the Medicaid State agencies, the Indian Health Service, the United Mine Workers, and the Railroad Retirement Board, may want to retrieve the quarterly CLFS. It will be available in multiple formats: Excel, text, and comma delimited.

Pricing Information

The CLFS includes separately payable fees for certain specimen collection methods (codes 36415, P9612, and P9615). Section 1833(h)(4)(B) of the Social Security Act provides for establishing these fees.

New Codes Effective July 1, 2019

Proprietary Laboratory Analysis (PLAs)

The following new codes may need to be manually added to the HCPCS file by the MACs with an effective date of July 1, 2019. These new codes are also contractor-priced until they appear on the January 1, 2020 CLFS as applicable.

Note: MACs will only price PLA codes for laboratories within their jurisdiction.
