Subject: Part D Model Material Notices for MMPs for Contract Year 2017

On November 1, 2016, CMS issued an HPMS memorandum, “Phased Implementation of the Medicare Part D Prescriber Enrollment Requirement by January 1, 2019” to explain the revised approach for enforcing the requirement. Since CMS is delaying implementation of the prescriber enrollment requirement beyond February 1, 2017, we instruct MMPs to delay use of the Part D Provisional Supply letter and the combination Part D Provisional Supply/Transition letter until further notice. We instruct New York FIDA and FIDA-IDD MMPs to delay use of the CY 2017 state-specific models of these two notices, which were issued on October 11, 2016. Additionally, we clarify that New York MMPs must use the updated CY 2017 state-specific Part D Transition letter, which was also issued on October 11, 2016.

Please contact the Medicare-Medicaid Coordination Office (MMCO) at MMCOCapsModel@cms.hhs.gov if you have any questions about the Part D model material notices.
